The Seminary

Williamsport Dickinson Seminary is a high grade boarding school for both sexes. For sixty-six years it has been doing its work with constantly increasing efficiency.

Location

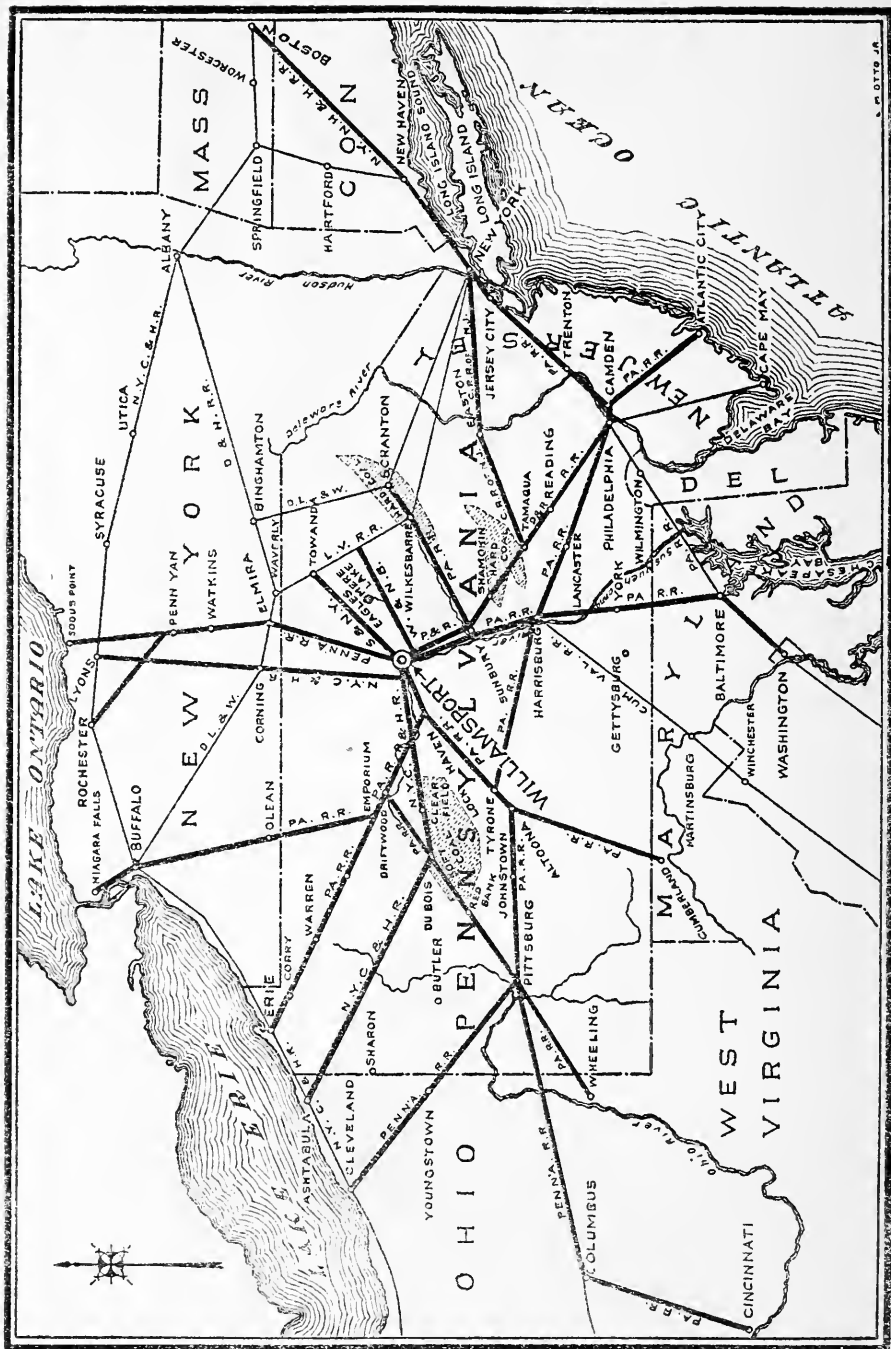

Williamsport is called "The Queen City of the West Branch of the Susquehanna River." Statistics prove it to be the healthiest city in the State of Pennsylvania, and it is reported to be the third healthiest city in the United States. It is famous for its picturesque scenery, its beautiful homes, and the culture and the kindness of its people. The Pennsylvania, the Reading, and the New York Central Railroads, with their fast trains, put Williamsport within two hours reach of Harrisburg, four and a half hours of Philadelphia, and seven hours of Pittsburgh.

Aim

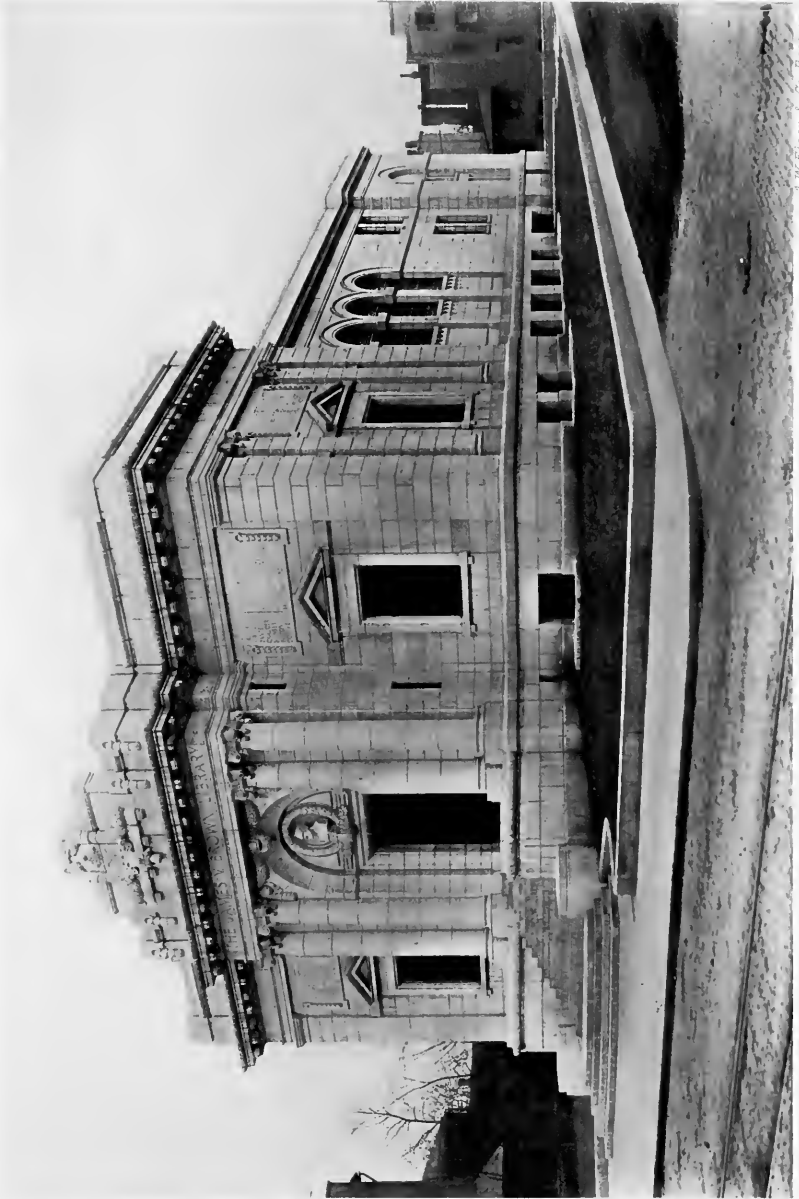

The Seminary aims to fit for college and for life. It prepares students for any college or technical school. For those who do not plan to go to college, it offers exceptionally strong courses leading to appropriate Diplomas. The large number of graduates who have gone directly from the Seminary to their life work, and are now filling high positions is the best possible testimony to the educational value of these courses.

Faculty

The Faculty is composed of thoroughly trained, carefully selected Christian men and women. The two ideals they hold before themselves are scholarship and character.

A Home School

Every effort is put forth to make the Seminary as home-like as possible. The instructors live with the students, room on the same halls, eat at the same tables, and strive in every way to win their confidence and friendship.

A School of Culture

The Seminary aims to develop in its students an easy familiarity with the best social forms and customs. Inter-course with young people of both sexes in the dining hall, at receptions and other social functions, together with frequent talks by instructors, do much in this way for both ladies and gentlemen.

A Religious School

The Seminary is a religious school. It is not sectarian. At least four religious denominations are represented on its Board of Directors. Every student is encouraged to be loyal to the church of his parents. But the atmosphere of the school is positively and aggressively religious. Every effort is made to induce students to enter upon the Christian life and be faithful thereto.

Discipline

The Seminary believes that young people can be led better than they can be driven. It strives to inspire its students with high ideals rather than to force them to do right through fear of punishment. But any lawlessness is promptly, and, if necessary, severely dealt with. Those who will not try to do right are not wanted at the Seminary.

The Sexes

The ladies' apartments are entirely separate from the others. Young ladies are chaperoned to all public entertainments. *There is no association of the young ladies and gentlemen except in the presence of the instructors.*

Athletics

The place of athletics in the life of the modern school is fully recognized. Attendance in the gymnasium is compulsory. Two Physical Directors care for the health of the students and direct their athletic work. One of the finest athletic fields in the State offers every facility for football, baseball, tennis, and other out-door sports.

Buildings

The buildings are of brick. They stand upon an eminence overlooking the city, in the midst of about six acres of beautiful grounds. The rooms are large, airy, and well furnished. The buildings are lighted by electricity, heated by steam, and supplied throughout with hot and cold water and all the modern conveniences. Constant care is exercised to preserve the best sanitary conditions.

Literary Societies

Three Literary Societies, the Belles Lettres, Gamma Epsilon, and Tripartite Union, with well selected libraries aggregating over two thousand volumes, are maintained by the students.

Library

A reference library is part of the equipment of the Seminary and every effort is made to train the student in an intelligent use of the same.

The James V. Brown Public Library is within two squares of the Seminary. Its large collection of books as well as its courses of lectures and entertainments are freely open to all students of the Seminary.

Special Information

Young people of good moral character may enter the Seminary at any time for a single term or longer.

Applicants must bring certificate of work done and recommendation from school previously attended or from former instructors.

Students from a distance are required to live in the buildings; but those having near relatives residing in Williamsport are sometimes granted permission to make their homes with them.

Students are expected to come on the first day of the term and remain until the last day. Absences from classes, at the beginning or end of holiday recesses, count double and cannot be excused.

Parents should not call their children home during the term. Any absence interferes with good work.

Permits from home are accepted as advices, not mandates. In any case the final decision as to whether a permission will be granted, rests with the President and Faculty. A permit, to be considered, should be mailed directly to the President.

No student shall be considered as having severed his connection with the Seminary until notice has been given and permission obtained from the President.

Students must report at the Seminary immediately upon arrival in Williamsport.

Students should be sparingly supplied with spending money. Whenever desired a member of the Faculty will act as patron, paying weekly such allowances as may be designated, and supervising all expenditures.

Students are not allowed to visit drinking saloons, pool rooms, the theater, or similar places of amusement. Disobedience to this rule will be followed by dismissal.

Any student, who for disciplinary reasons, is requested to leave the city before a certain time, shall be considered as having expelled himself if he delays his departure beyond the time designated.

The Sabbath must be strictly observed. Attendance upon church services is required of all.

Students are expected to provide themselves with Methodist Hymnals (new edition) for use in the chapel service.

Meeting or engaging in conversation by ladies and gentlemen is forbidden except at such times and places as may be arranged for by the Faculty.

Students remaining at the Seminary during the holidays will be charged \$1.00 for each day or part of a day.

Guests may be entertained only when the permission of the President has first been obtained and their hosts pay the regular rates for their entertainment. Parents or guardians visiting pupils are for the first twenty-four hours the guests of the Seminary. No visitors are allowed on halls or in the students' rooms without permission.

Everyone who desires to continue as a student of the Seminary must show a reasonable disposition to comply with its regulations. In addition to the above some of the things expected are the following:

To be present at recitations or in his own room during study hours.

To keep his room and furniture in good condition.

To pay at once for any damage done by him to furniture, room, or any part of the grounds and buildings.

To refrain from using tobacco in any form about the buildings or grounds and to abstain from all coarse or profane language.

Not to leave the city or go bathing, boating, skating, fishing, gunning, or riding without permission from the President.

To obtain the permission of the Faculty before dropping any study which has been taken up.

Day students during school hours are under the same regulations as the boarding students. They are required:

To study quietly in the Study Hall when not in actual attendance upon recitations.

To attend the morning chapel services.

To procure from parent or guardian a written excuse for absence from chapel or recitation.

To abstain from all visiting in dormitory halls or in students' rooms during study hours.

We absolutely must insist upon the prompt payment of all bills.

Emphasis will be laid upon thoroughness of work. The Faculty reserves the right to limit the number of studies which any pupil will be allowed to carry.

Students who do not intend to pursue one of the regular courses, with the consent of their parents and the approval of the Faculty, may elect such studies as they desire.

Departments

English Bible and Ethics

PRESIDENT CONNER.

English Bible is a required study. Every student, whether in a regular course or a special student, is assigned to one of the Bible classes. The effort is made by the use of text books and lectures to acquire a familiarity with the outline and most striking events and characters of Biblical History. (One period a week.)

The work in Ethics seeks to acquaint the student with the ideals of the different ethical schools and to show the reasonableness and necessity of loyalty to high moral standards. The text book is *Ethical Principles* (Seth).

Ancient Languages

DEAN NORCROSS.

The practical value of a study of the classics has often been questioned but nothing has ever been found to take its place. The classics are still retained in the best courses of the best schools, and are pre-eminently adapted to bring the student to an acquaintance with language and life.

The Preparatory course offered by the Seminary covers the needs of those preparing for college or technical school. The Classical course is more extensive and offers a part of the work usually done in college. Every effort is put forth to make the study alive and interesting to the student. Scrupulous attention is given to grammatical structure, the relation of these languages to English, the illustration and application of principles, accuracy and elegance in translation, and the literary significance of the authors. Prose composition is carried through the course.

Latin

DEAN NORCROSS, PROFESSOR CLAUSING, MISS MACK.

In the College Preparatory Course the work in Latin is scheduled throughout the four years of the course, and will meet the requirements for entrance to any standard college. The course provides for prose composition with each year's work.

FIRST YEAR.

Latin for Beginners (D'Ooge). Daily drill in cases and constructions. Prose composition. Sight translation.

SECOND YEAR.

Caesar's Commentaries Books I-IV (Bennett). Sight translation and composition, The New Latin Composition (Bennett). Systematic study of formal grammar (Bennett).

THIRD YEAR.

Cicero's Orations (Bennett), Catiline I-IV, Archias, Manilian Law. Sight translation and composition based on the text (The New Latin Composition, Bennett). Review of Grammar.

FOURTH YEAR.

Virgil's Aeneid (Bennett), Books I-VI. Daily practice in metrical reading. Prosody. Sight translation. Prose, The New Latin Composition (Bennett).

Students in the Classical course in the fifth year also read Livy, (Greenough and Peck), Books XXI and XXII; Horace, Odes and Epodes (Smith); Cicero, De Senectute (Bennett).

Greek

DEAN NORCROSS.

Experience has shown that three years are required to cover satisfactorily the College Preparatory course in Greek.

FIRST YEAR.

Using Beginner's Greek Book (Benner and Smyth) as a text the class is prepared as quickly as possible for reading. The latter half of the year easy selections from Xenophon are read.

SECOND YEAR.

Xenophon's Anabasis, Books I-IV (Mather and Hewitt). Sight translation and composition based on the text. Systematic study of formal grammar (Goodwin). Prose composition throughout the year, Greek Prose Composition (Pearson).

THIRD YEAR.

Homer's Iliad, Books I, II, III, and VI (Seymour). In connection with the work in Homer there is a careful study of Greek Literature based upon Jebb's Primer of Greek Literature. Prose Composition.

In the fifth year of the Classical course, students read Xenophon, *Memorabilia* (Smith); Plato, *Apology* and *Crito* (Smith), and Thucydides, Book I.

History

MISS ALBERT.

The study of history runs through three years. Five hours per week are given to this work. In teaching Ancient History, special emphasis will be laid upon the period from the decline of the Roman Empire to Charlemagne, and, in teaching English History, attention will be directed to the parallel development of the other nations of western Europe. Supplementary work in Civics will form a part of the course in American History.

FIRST YEAR.

Ancient History. Ancient World, Revised Edition (West).

SECOND YEAR.

English History. Essentials in English History (Walker).

THIRD YEAR.

American History. The History of the United States (Adams and Trent).

ELEMENTARY COURSE.

Elementary work in United States History is provided for students who are not prepared to enter the regular courses. A History of the United States (Gordy).

Sciences

PROFESSOR FRANK.

The courses offered by the Science Department of the Seminary are as follows:

Physics. One year is devoted to the study of Physics. Three recitations are held each week and three hours are

spent in the laboratory. Forty-five experiments are performed, data recorded, and notes written up in the laboratory. Special effort is put forth to make all determinations accurate so that the facts when organized will show clearly the conclusions or general principles the experiment is intended to develop. The text used is A First Course in Physics (Millikan and Gale).

Chemistry. The subject of Chemistry is pursued throughout the year, the course consisting of three recitations and three hours laboratory work each week. Forty-five experiments are completed, the notes recorded and corrected in the laboratory. The text used is First Principles of Chemistry (Brownlee and others).

Physical Geography. Physical Geography is taught for one semester. Numerous field trips are taken to various points near Williamsport and reports are made by the students as they proceed to a practical application of the theory acquired in the class-room. The text used is Elementary Physical Geography (Davis).

Botany. The work in Botany is covered in the second semester. Laboratory exercises are performed by the students. An accurate analysis is made of twenty-five (25) specimens, whose characteristics are ascertained and names determined; the results of this study are preserved in the notebooks opposite each plant examined. Attention is focused particularly upon the manner in which the plant machine accomplishes its work of growth and reproduction. The text used is Introduction to Botany (Bergen and Caldwell).

Modern Languages

MISS STEVENS.

Courses are offered in German and French which fully prepare for college entrance. The aim is to give at least the beginnings of a real insight into the language and litera-

1. Art Studio 2. Commercial Room 3. Laboratory

ture. As far as possible the language studied is made the language of the class room. Daily exercises in grammar, translation, and composition are supplemented by frequent conversational exercises, the memorizing of standard poems, and class singing of songs.

Mathematics

PROFESSOR JEFFREY.

Arithmetic (Milne Standard).

Arithmetic is completed in Academic and Commercial courses.

ALGEBRA (Wells).

Three semesters are devoted to a thorough covering of the work through Quadratic Equations, the aim being to make the student familiar with the symbolic language and fundamental processes of Algebra, that he may be prepared for advanced work.

GEOMETRY (Wells).

Two semesters are devoted to the study of Plane Geometry and one semester to Solid Geometry. The student is helped to a comprehension of the study by concrete illustrations and careful verbal explanations. In the work of demonstration, clearness and exactness of statement are insisted upon. To develop the student's own powers of reasoning, special emphasis is laid upon original work.

COLLEGE ALGEBRA.

A course in College Algebra is taken up and completed.

TRIGONOMETRY (Wells, New).

The work in Plane Trigonometry is done by students in the Classical and Scientific courses. It may be elected by College Preparatory students who need it for college entrance.

PLANE SURVEYING (Robbins).

The theory and use of chain, tape, compass, level, and transit are taught. The methods of surveying and computing are explained. Each student is required to make plots, maps, and the necessary calculations from actual surveys. The recent addition of a high grade combined transit and leveling instrument makes possible a grade of work not usually done in secondary schools.

ANALYTIC GEOMETRY

A course in Analytic Geometry is given to students of the Classical course.

CALCULUS.

Differential and Integral Calculus is offered to those whose previous preparation has been such as to qualify them for the work.

English

PROFESSOR PEASE.

The aim of the work in English is to develop as far as possible, in every student, the power to write correct and forceful English, and to understand and appreciate the best things which others have written. The foundations are carefully laid in a study of formal grammar, which is a requirement for admission to First Year English. The principles of grammar are constantly reviewed throughout the course. Themes and longer compositions are frequently required. These are examined, corrected, and returned to the pupil for revision or for new work of a similar character. Essays and orations for public delivery are required from all students in English III and IV. The schedule of English Classics for college entrance requirements is followed throughout the four years, and in English III text books on American and English Literature are studied. Careful attention is given to oral English.

FIRST YEAR.

Careful drill and review of grammar. Practical exercises are given in order that the student may learn to construct sentences that obey the laws of syntax. Students are taught how to use the dictionary. Reading, Letter Writing, Spelling, and Punctuation are given throughout the year.

lish composition. Students are drilled in selection of subjects, theme building, paragraphing, clear and correct expression. Attention is paid to oral composition to secure accuracy of speech.

The classics read and studied are *The Lady of the Lake, Scott*; *Sketch Book, Irving*; *David Copperfield, Dickens*; *Treasure Island, Stevenson*; *Old Testament Stories*; *Odyssey*.

SECOND YEAR.

With *The New Composition—Rhetoric* (Scott and Denney) as a text, a careful study of composition is continued through the second and third years. Especial attention is given to sentence building and methods for enlarging and correcting the vocabulary. The rhetorical principles of unity, coherence, and force are carefully studied. The paragraph is made the basis of this systematic study.

The classics read are *Ivanhoe, Scott*; *Sir Roger de Coverly Papers, Addison*; *Merchant of Venice, Shakespeare*, *Silas Marner, George Eliot*.

THIRD YEAR.

Two essays or orations for public delivery are required. All students follow *Outline Study of English Literature* (Howe) in connection with their work with the classics. More extensive courses in *American Literature* (Halleck) and *English Literature* (Pancoast) are elective. Psychology, Logic, Literature

MISS MACK.

Psychology (Halleck). The importance of the study of Psychology as a foundation for the other sciences is emphasized. We endeavor to realize the close connection between Psychology and Life in its varied phases, and the supreme importance of the Good Will in its relation to emotion, intellectual action, and the formation of habit. The lengthened term will allow a resumption of the work in Experimental Psychology.

Logic (Creighton's Introductory). A brief summary of Aristotelian Logic is followed by a study of the contributions to the Science made by the greatest Logicians since his day. The inter-relation of Psychology and Logic is shown, and the methods of the other sciences as a part of Logic are duly recognized. The cardinal principles underlying correct reasoning are carefully studied and applied to the detection of fallacy.

Literature. Apart from the required work, more extensive courses are offered in English and American Literature. In addition to the historical study, students are introduced to representative masterpieces and are helped to understand and enjoy what is best in our language. The texts used are Halleck's History of English Literature, and Hal-

leck's History of American Literature, with supplementary reading.

Economics

PROFESSOR CLAUSING.

Elements of Economics (Burch and Nearing). This is an introduction to the general field of economics, intended primarily for beginners. More emphasis is laid upon the concrete and practical side of the subject than upon the theoretical. Special attention is given to the study of modern economic problems such as immigration, child labor, conservation of natural resources, the tariff, etc.

Athletics and Physical Training (Boys)

Persistent effort is made to interest every boy in some form of in-door and out-door sport. The athletic teams are carefully selected and trained. They are sent into a game to win if they can, but more emphasis is placed upon playing the game fair and straight than upon winning. An inexpensive regulation gymnasium suit can be procured after reaching the Seminary.

Commercial Department

PROFESSOR HOYT.

The Seminary has been offering such courses of instruction in Bookkeeping and Business, Stenography and Typewriting, etc., as are usually offered in a Business College, and will continue to do so for the benefit of students who desire to take such work.

But the day has come when the young man or woman who desires to win large success must receive a broader training for his work. From three to four years are spent in a school of law or medicine. Why should there not be an equally thorough training for business? If a boy prepares to enter college by studying for four years the languages and mathematics he will need when he enters upon

his work there, why should he not spend three or four years studying the world's geography and history from a commercial point of view, acquainting himself thoroughly with the theory and practice of business as it is carried on by the great industrial and financial concerns of to-day, getting a grip on the things he will need to use when he steps out into the business world? The attention of parents who have children they desire to prepare for business is especially directed to the new course in Commerce, which, in addition to what has been mentioned, includes a three years' careful drill in those common English branches which are the raw material of all our knowledge; a course in commercial law and full courses in bookkeeping and in stenography and typewriting. Students entering either the regular or one of the special courses, are charged the regular rate of \$75 per year. There are no extras unless extra work is taken. For detailed course of Commerce see under Courses of Study.

SPECIAL COURSES.

In addition to the Three Years' Course in Commerce, leading to graduation, the Seminary offers to its students an opportunity to pursue work in any of the commercial subjects. All the advantages of the school are open to these special students, including the privilege to carry studies in any of the regular courses without extra cost.

The following work is required for a certificate in these special courses:

BOOKKEEPING.

Commercial Arithmetic, Complete, English Grammar, Spelling, Penmanship, Commercial Law, Bookkeeping, Complete.

SHORTHAND.

Shorthand, Typewriting, Commercial Law, Commercial Arithmetic, English Grammar, Spelling, Penmanship, Office Practice.

A required speed in shorthand and typewriting must be attained.

No work will be accepted for any of these studies. Students desiring certificate must either take the work in the Seminary, present approved certificates, or pass a satisfactory examination.

The Seminary does not guarantee to get positions for its students, but it has always had more calls for well qualified bookkeepers and stenographers than it could supply.

The Academic Department

Young or backward pupils who are not prepared for the work of the regular courses enter the Academic Department. Here regularly graded classes in all the common English branches afford opportunity to take such work as they are fitted for. The work of the last year includes Arithmetic, Grammar, English Composition, Geography and Map Drawing, American History, Reading, Spelling, and Penmanship.

The Junior Department

A limited number of children over six years of age are received as day pupils. For the accommodation of these a large well lighted school room furnished with all modern equipment is provided. A competent teacher especially trained for this work gives to each pupil an amount of individual attention such as could not under ordinary conditions of school life be given. The special teachers in Art, Expression and Physical Training give the children lessons in these subjects and the course of study and methods of instruction are such as are in use in the best primary schools.

For more detailed information as to text books used, methods, etc., see under Departments.

Music Department

Piano

MISS EHREN. MISS PARLETTE. MISS FEIGLEY.

This course has recently been lengthened to four years. The character of the work required as well as the quality of the instruction will, it is believed, still further increase the high reputation the Seminary has already won.

Students will be admitted to any class for which they are properly prepared.

Pupils taking but one lesson a week cannot complete the course in the prescribed time.

All candidates for graduation, in either instrumental or vocal music, must have studied and passed satisfactory examinations in Harmony, History of Music, Elements of Music, and Ear Training, and must have played in public.

No reductions will be made for lessons missed because pupils have failed to present themselves at the time appointed, nor is the teacher under any obligations to make up such lessons with the pupil. No music student is allowed to teach without the consent of the Director of the Music Department.

ENTIRELY NEW PIANOS—In order to furnish our Music Students with the best facilities for prosecuting their work we arranged last year to have every piano in the building removed and four (4) new Knabe Concert Grand and (20) new Haines Brothers pianos put in their places. We have never been so well equipped in this particular before. The following letter explains itself:

AMERICAN PIANO COMPANY

Knabe Building,
Fifth Ave., Cor. 39th St.,

New York, April 22, 1913.

Rev. B. C. Conner, Pres.

The Dickinson Seminary,
Williamsport, Pa.

My Dear Mr. Conner: We have your favor of April 21st enclosing contracts properly signed for the purchase of four (4) new Knabe Concert Grand Pianos and twenty (20) Style 17 Mahogany Haines Brothers Pianos, which will equip Dickinson Seminary exclusively with new pianos.

We wish to congratulate you on this equipment and, from a personal acquaintance with the equipment used in practically all of the better colleges in this country, we can assure you that your equipment of pianos will be equal to any Seminary in your State and far superior to a great majority of them.

Thanking you very much for your patronage, we are

Very truly yours,

AMERICAN PIANO COMPANY,

J. H. Williams,

Manager College Department.

To all such we gladly state that we are legally authorized, and fully prepared to issue *Annuity Bonds* on which we pay interest, semi-annually, to the donors as long as they live. The rate of interest varies with the age of the one making the donation. We have recently received \$10,000.00 in this way. Those interested will please correspond with the President of the Seminary.
